

Cancer

Sick Puppies

Tell me all your plans and I'll laugh back in your face
Preach me your religion if you're dumb enough to pray

I tried to make a change to get a better way
to make a little more money
I tried to get away to see if I could stay
and look what I became, honey

What is it I'm after
Searching for disaster
Watching my whole life flash in front of my eyes
We've been given answers
Still we're walking cancers
Dressed up as a life

Get all your news from a corporate company
Trade in your opinion for a gallon of gasoline
Go!

I tried to get away to see if I could stay
And look what I became, honey

What is it I'm after
Searching for disaster
Watching my whole life flash in front of my eyes
We've been given answers
Still we're walking cancers
Dressed up as a life
Dressed up as a life
Dressed up as a life

This life is a waste of life
This life...
Is a fucking lie!

What is it I'm after
Searching for disaster
Watching my whole life flash in front of my eyes
We've been given answers
Still we're walking cancers
Dressed up as a life
Dressed up as a life
Dressed up as a life
Dressed up as...
