

## Believe

Sicko

Could you believe anything was wrong in the world  
on a night like tonight  
Keep the beat up fast and everything's fine  
and the crowd reflects a shining light

Telling me that I've done something right for once  
Telling me that I mean something to someone  
and I wish there was a way to say  
just how much this means to me

This is the way that I had dreamed  
I can't believe that this is me

Me, and 10 years gone  
and this scene will not be replayed  
your patient ears through all the shows we've played  
the past four years, leave a debt unpaid
