

Good for My Soul

Sidewalk Prophets

Breaking news, this just in
The the worst thing ever just happened again
If this is all, that the future holds
I need something good for my soul

Studies say, time's running out
All the pundits and polls, confirm our doubts
Feels like hope is at an all-time low
I need something good for my soul

I need something good for my soul (I need something good for my soul)
I need something good for my soul (I need something good for my soul)
When the world feels so out of control
Don't know much, but what I know for sure
I need something good for my soul (I need something good for my soul)
Good for my soul (yeah)

Open up the door, and let the light in
There's a brand new day, about to begin
Joy will come, and the stress will go
When you find something good for your soul

I need something good for my soul (I need something good for my soul)
I need something good for my soul (I need something good for my soul)
When the world feels so out of control
Don't know much, but what I know for sure
I need something good for my soul (I need something good for my soul)

Good for my soul
Good for my soul
Good for my soul
Good for my soul

Hope is something good...
Truth is something good...
Joy is something good...
'Cause His love is always good

Hope is something good...
Truth is something good...
Joy is something good...
'Cause His love is always good
Yeah, His love is always good
Let's rock and roll!
(So good)

When the world feels so out of control
Don't know much, but what I know for sure
I need something good for my soul

Good for my soul
Good for my soul
Good for my soul
Good for my soul
So so good
(Ooh aah)
