

Great Big Family Christmas

Sidewalk Prophets

The air is getting colder
The world is all aglow
It's the perfect time to bundle up
And make some angels in the snow

Stockings, sledding, old St. Nick
And carols in the street
What I love most about this time of year
Is seeing friends and family

I'm talking
Sleigh bells and reindeer
And the loved ones we hold near

We'll have a great big family Christmas
Gather around the tree
For the great big family Christmas
Let's celebrate the King

Let's deck the halls with laughter
And light up the town square up with joy
So that those who see, will know we're all family

And this party's free to join

I'm talking about sisters and dear friends
And shepherds and wisemen
You know the Baby in a manger
Made family from strangers

We'll have a great big family Christmas
Gather around the tree
For the great big family Christmas
Let's celebrate the King

We'll have a great big family Christmas
Gather around the tree
For the great big family Christmas
Now everybody sing

Fa-la-la-la la-la-la
Fa-la-la-la-la-la

No matter where you end up
On this Christmas day
Your family's with you in your heart
Whether home or far away
