

## the fall

Sidney Gish

It turned around, so fast we fell  
Stars went by  
There's just air  
And a view from way up high

So I'll brave the weather  
I'll brave the fallen hope that  
When it ends I'll be safe  
Ooh, I'll be safe  
Ooh, I'll be safe

We saw the ground come closer  
Mile by mile  
In colors, never seen before  
We should stay for a little while

So I'll brave the weather  
I'll brave the fallen hope that  
When it ends I'll be safe  
Ooh, I'll be safe  
Ooh, I'll be safe

Hair tied with bows  
White faces, paper skin  
And they said  
How lucky the fall had been

So I'll brave the weather  
I'll brave the fallen hope that  
When it ends I'll be safe  
Ooh, I'll be safe  
Ooh, I'll be safe

We didn't conquer the slanted land  
Or the tales  
They used to tell  
Of pink men with hair and nails

So I'll brave the weather  
I'll brave the fallen hope that  
When it ends I'll be safe  
I'll be safe  
I'll be safe
