

Outlander

Siena Root

Hey there, stranger
Take my hand
A little bird whispered
And influenced my soul
The sun is dying
Sail away tonight

So take my hand
The time has come
It's time to leave
Out of the darkness
And into the light
Making me believe

Entering of our
Long from home
Everything is gonna last
What will we become
The world of broken souls
And ill desires

So take my hand
The time has come
It's time to leave
Out of the darkness
And into the light
Making me believe

Hey there, stranger
Take my hand
The little bird whispered
And influenced my soul
Your mind is sleeping
Now try to get away

So take my hand
The time has come
It's time to leave
Out of the darkness
And into the light
Making me believe
