

I want to tell you, that time ain't right  
I'm tryna tell you I'm not gonna fight  
It's getting dark now  
So leave me be  
All by myself now  
Where no one can see, (oh, yeah)

This is my secret  
Where kept and cooled  
I'm gonna hide it, nobody's fooled  
You're getting closer, don't be so cruel  
I'm hanging in there my long lost human

Who can stop me now?  
You're steaming and on my mind  
So who can stop me now?  
May darkness come to light

This is my secret, my brawn, and fuel  
No use in hidin, I'm here to rule  
The moon is rising, I'm in my mood  
You better run now I am the ghoul

Who can stop me now?  
You're steaming and on my mind  
So who can stop me now?  
May darkness come to light

Who can stop me now?  
You're steaming and on my mind  
So who can stop me now?  
May darkness come to light
