

NEED ME

Sienna Spiro

Know I've been thinking and how hard was it to call
You were everything I had, now I have nothing at all
I've been in the waiting room, oh baby, won't you let me in?
Check up on me like you check out all your friends

Ooh, am I being selfish?
'Cause I know I could never make you stay
But tell me, tell me I'm worth it
'Cause all I need is for you to need me

I need you, need you
To need me like water
Need you, I need you
I need to be for you
Selfishly, I have to be the only air that you can breathe
I need you to need me

Know that I've been changing everything to make you care
If I left the room, would you notice I wasn't there?
You can cry upon my shoulder, I'll be there, I'll be your soldier
'Cause you know me, I give in so easily

I need you, need you
To need me like water
Need you, I need you
I need to be for you
Selfishly, I have to be the only air that you can breathe
Need you to need me
I need you, mmm

Ice cold, are you feeling it?
Eyes closed, are you seeing it?
Even when you are not around
I'm needing you, needing you
Ice cold, are you feeling it?
Eyes closed, are you seeing it?
Even when you are not around
I'm needing you, needing you now
Now
Now
