

ORIGAMI

Sienna Spiro

Watch you on the TV
Driving your Ferrari
Why do you go without me
When I'm not next to you
Crying in my kitchen
You don't know what you're missing
To you I don't exist and
That's all I wanna do

Tears will fall in black and white
Every time I realize

That I've been watching you
And even though you don't know me, I
Feel close to you
I've got a mind for origami
And I can put my hands in the air
You still wouldn't see me any better
I've been watching you
Watching you

All I've ever done, no no

I found a new religion, you're the only mission
Can't you take me higher?
On your paper plane
And let me be your shadow
No one has to know
I was always closer than you knew

Cuz I been watching you
And even though you don't know me
I feel close to you
I've got a mind for origami
And I can put my hands in the air
You still wouldn't see me any better
I've been watching you
Watching you

Oh...

I can't help it
I just know that
If I could draw you near
I can't help it, I'm so sure
You'd tell me something
That I wanted to, I wanted to hear
I'm yours
I'm yours

I been watching you
And even though you don't know me
I feel close to you
I've got a mind for origami
And I can put my hands in the air
You still wouldn't see me any better
I've been watching you

Watching you

Mmh...
