

# At The End Of The Rainbow

Sierra Ferrell

At the end of the rainbow  
You'll be waiting for me  
You said you loved me  
But you had to leave  
I'm at the end of the rainbow  
Where all your love is just for me  
You can't help yourself  
You give your love away for free

You say the women in this town they're just like gold  
From where I'm standing they spend it up their nose  
Soon you're gonna find these girls they ain't nothing but cold  
Yes it's gonna rain but the sun's gonna shine on through

At the end of the rainbow  
You'll be waiting for me  
You said you loved me  
But you had to leave  
At the end of the rainbow  
All your love is just for me  
You can't help yourself  
You give your love away for free

It's another lonely day oh then you get mucky  
But after all these years it has left you feelin' so yucky  
I'm forgivin' Father Time though he don't want any of your wine  
And I'm just hopin' by now you see that sun you gonna see it through that rain

At the end of the rainbow  
You'll be waiting for me  
You said that you loved me  
Oh but you had to leave  
At the end of the rainbow  
All your love is just for little old me  
Well you can't help yourself  
You give your love away for free  
Yes you give your love away for free  
I swear you should give all your love to me
