

Lighthouse

Sierra Ferrell

One, two, three

Could you be the lighthouse?
Could you be the lighthouse?
Could you be the lighthouse for my soul?
Could you be the guiding light, tell me everything's alright?
Could you be the one that I love so?

I was on the path I thought was so bright and so true
For every step I found I take, yes, each step I took, it led me
straight to you

Could you be the lighthouse?
Could you be the lighthouse?
Could you be the lighthouse for my soul?
Could you be the guiding light and tell me everything's alright
?
Could you be the one that I love so?

That's when I found myself in darkness, I was all alone and afraid
But I kept climbing further still, that's when I found myself up
high upon a cliff

Could you be the lighthouse?
Could you be the lighthouse?
Could you be the lighthouse for my soul?
Could you be the guiding light, tell me everything's alright?
Could you be the one that I love so?

I know I'm gonna be okay, yes, I'm alright without you
For I know there's a brighter day for I saw his light shining through
the mist

Could you be the lighthouse?
Could you be the lighthouse?
Could you be the lighthouse for my soul?
Could you be the guiding light, tell me everything's alright?
Could you be the one that I love so?

Could you be the lighthouse?
Could you be the
Could you be the lighthouse?
Could you be the lighthouse for my soul?
Could you be the guiding light, tell me everything's alright?
Could you be the
Could you be the one that I love so?

Could you be the one that I love so?
