

Silver Dollar

Sierra Ferrell

I'm out here in all of the honky-tonks
I'm finding out all of my do's and don'ts
The last shot I took it went straight to my head
I'm out here dancing with you I'm not home instead

I don't want your silver dollar
I don't want your wedding ring
All that I want is a place I can come to
To give away the love I have inside of me

Everything in life it comes back full circle
Don't do something to someone you don't want done to you
Oh no no it ain't funny
Bread bread bread we all need that money

I don't want your silver dollar no
I don't want your wedding ring
All that I want is a place to surrender
All of the love I have inside of me
All of the love I have inside of me
All of the love I have inside of me
