

Tidal Wave

Sierra Ferrell

Baby take a step back from where you stand
First you've gotta give me back my hand
Do you even call yourself a man?
How the water outside, it makes ya melt like sand [?]

Look oh look, Well here comes my tidal wave
Come to take me away, I can't wait another day
Its so long now, I can't hear what you say
Don't look at me that way, I can't wait another day

Oh oh oh oh
Now baby take a step back from where you stand
I done told you once before you're not gonna be my man
I'm tired of sitting 'round here just kicking cans
I'm gonna travel the world while [?] seeing this land

Look oh look, Well here comes my tidal wave
Come to take me away, No I can't wait another day
Its so long now, I can't hear what you say
Don't look at me that way, I can't wait another day

Baby take a step back from where you stand
No no no no, You can't be my man
I'll tell you what boy, You ruined all my plans
Gonna hit you in that ear [?] with a frying pan

Look oh look, Well here comes my tidal wave
Come to take me away, No I can't wait another day
Its so long now, I can't hear what you say
Don't look at me that way, I can't wait another day
No oh oh no, I can't wait another day
