

Why'd Ya Do It

Sierra Ferrell

Don't be afraid of the darkness
No, don't be ashamed of the light
My love for you's a deep blue ocean, baby
I just wanna swim inside

I wanna go with you everywhere
Yes, even I would write your name upon the stars
My love for you's a fire in motion, baby
You make me feel alive

Shiver, shiver shake
Oh, my poor head's gonna break
Can't quite wrap it around you
No, I don't know what I should do

Why'd you do it? Why did you do it?
Why did you fall in love?
It's a hard fall from way up there
Come down, dear, that's enough

Why did you do it? Why did you do it?
Why did you fall in love?
It's a hard fall from way up there
Come down, dear, that's enough

You love me with your body
But it's never with your heart
I'm gonna find somebody
Who won't tear my world apart

Why'd you do it? Why did you do it?
Why did you fall in love?
It's a hard fall from way up there
Come down, dear, that's enough

Why did you do it? Why did you do it?
Why did you fall in love?
It's a hard fall from way up there
Come down, dear, that's enough
