

## Back For More

Sierra Kidd

We already got us some  
But now we're back for more (Now we're back for more)  
Ten out of tens in the room  
And they dance their asses off (Asses off)  
So I throw a couple ones in the sky  
It's gon' be a life-changing moment tonight ('Night)  
Because I'm finally back for more (I'm back for more)

I can see the envy in your eyes (In your eyes)  
My enemies get faded off of white (White)  
You losin' control over your life (Life)  
While I'm livin' mines in the night (Night)  
And just to make you understand  
I got a hundred hundreds stuffed in rubberbands  
Gave my people chances 'cause we never had a chance  
We come from the trenches, baby, you don't stand a chance  
(Guess what?) I can pull up on your block  
Right now and leave my car  
Won't get scratches nor get shot  
Can say everything I want  
I do walk like I do talk  
Pull my chains out, drop my top  
Get respect wherever we are (Yeah)

We already got us some  
But now we're back for more (Now we're back for more)  
Ten out of tens in the room  
And they dance their asses off (Asses off)  
So I throw a couple ones in the sky  
It's gon' be a life-changing moment tonight ('Night)  
Because I'm finally back for more (I'm back for more)
