

# Lose My Life

Sierra Kidd

I was made in pain  
I was formed by mistakes  
I was born and raised  
Where most men fail  
Where most women lie  
Where most men die  
Where those who try  
Usually don't make it out alive

What you know about  
Breakin' in doors with bend forks just to find some more  
Than what you're making a month with sellin' dope?  
What you know about  
Seein' blood on your mamas tank top, but you don't say a thing  
'Cause you know it would even break her more?

What you know about  
Losin' friends to drugs, losin' friends to jail  
Losin' faith in God, losin' everything?  
I'm ridin' round with a certain type of pain

That's gon' kill every other emotion  
Drown in my tears like in oceans  
Baby let's set things in motion  
Need to see your body open, need to lose my focus  
Just for one day, one night, usin' my soul less  
Let me act soulless, uh

I was made in pain  
I was formed by mistakes  
I was born and raised  
Where most men fail  
Where most women lie  
Where most men die  
Where those who try  
Usually don't make it out alive

What you know about  
Losin' friends to drugs, losin' friends to jail  
Losin' faith in God, losin' everything?  
I just wanna make it and then die in peace  
I just wanna make it, let me live my life in peace  
Don't let me lose my life in these streets
