

Waste Your Time

Sierra Kidd

How long do you gonna shut me out for
I mean do you really not think about us anymore
Do you really not care like we did before
Will we ever be the same

I know you want me for life, but I can't make you mine
But I'm sorry for lying I wanted to dive in the pussy
And didn't even hide it, I hope you forgive me
I know you stay silent
Gave you the night of your life when you sucked on my privates
But don't feel entitled 'cause you fell in love with me
Know that [?] who ain't the one baby, one hand on the bible
You wasn't there when I was suicidal
You was just a moment, a girl on the side
And I know you won't find me here apologizing
I'm not even kidding I'm not even trying
Yeah I'm not shittin' that's what to [?]
Grew up without fathers had no-one to guideme
I don't even care that you crying
I'm sure you will find someone else that would gladly stand by you

I'm doing you a favor by [?] or waste your time
I'm doing you a favor, don't text me you won't get a reply
'Cause I'm unstable and I used you to get me one night
And If you fall for that again, then it's on you

Yeah, you better drive five hours to see me
I know I'm a king and that's how I get treated
I don't want relations just someone to be with
I just need another [?] everything needed
I know you're tellin' your friends how I beat it
You look like a goddess your head game is evil
I've read all your captions you better delete it
For someone put something together and sees it
You got a new one that's not even half of me
Nearly buy you another Benz for no reason
Nearly put Juri on all of his people
Is he good in every city he be in?

'Cause I am (sorry) I am

I'm doing you a favor by [?] or waste your time
I'm doing you a favor, don't text me you won't get a reply
'Cause I'm unstable and I used you to get me one night
And If you fall for that again, then it's on you
