

You Know

Sierra Kidd

Yeah, yeah

It's on my wrist, but it cost an arm and a leg
I never fumble the bag
Talking advance, yes, I'm talking straight cash
I put it straight in the stash
I got rejected, so many times
Bet it won't happen again
I'm in the club, throwing up bands
Like J Hus, make a bad man dance

I ain't gon' lie
I'm back in the trap, I'm back outside-ide-ide
And I ain't gon' lie
This year, I'm making it mine, mine, mine

You know it's my whip, when I'm parking the Benz
You know it's big drip when I walk in the ends
I was dead broke, that's how it began
Fortunately, that's not how it ends
You know it's my whip when you see me in it
That's when you know that it ain't no image
Walk around town like there's still some business
I ain't gonna leave, I'm finished

[?] we out with a bang
Got your bros never walking again
Better check twice what comes out your mouth (Uh)
Or the goons put his head in your hands
I'm not the guy that is making amends
Rather the guy that is making a mess
You wanna talk greazy in front of the gang (Uh)
When you're done, let me know how it went
I'ma burst the bubble like a [?]
And they try to stop me, never stop trying
Just be careful 'fore it backfires
Sit in the back, yeah, I'm that guy
I'm the shit, like, I attract flies
Spin the block like a test drive
Put you on the ground like a flat tire
Last night was your last night

I ain't gon' lie
I'm back in the trap, I'm back outside-ide-ide
And I ain't gon' lie
This year, I'm making it mine, mine, mine

You know it's my whip, when I'm parking the Benz
You know it's big drip when I walk in the ends
I was dead broke, that's how it began
Fortunately, that's not how it ends
You know it's my whip when you see me in it
That's when you know that it ain't no image
Walk around town like there's still some business
I ain't gonna leave, I'm finished
You know it's my whip, when I'm parking the Benz
You know it's big drip when I walk in the ends

I was dead broke, that's how it began
Fortunately, that's not how it ends
You know it's my whip when you see me in it
That's when you know that it ain't no image
Walk around town like there's still some business
I ain't gonna leave, I'm finished, yeah
