

Like Sunshine

Sigala

I will always be there like sunshine

Driving, top back
The wind in your hair and your foot on the gas
Time flies so fast
But as long as you're here with me

I know that I can keep on counting on you
And you can keep on counting on me
And if the rain starts falling
And your hands are cold

I will always be there like sunshine
I will always be there like sunshine
I will always be there like sunshine
I will always be there like sunshine
I will always be there like sunshine
I will always be there like sunshine

Hold on for me
Know I got your back through the good and the bad
Promise to keep
But as long as you're here with me

I know that I can keep on counting on you
And you can keep on counting on me
And if the rain starts falling
And your hands are cold

I will always be there like sunshine
I will always be there like sunshine
I will always be there like sunshine
I will always be there like sunshine
I will always be there like sunshine
I will always be there like sunshine
I will always be there like sunshine
I will always be there like sunshine
I will always be there like sunshine
