

We Got Love

Sigala

You can run away from it all
But like a boomerang
It'll all come back

You can hang on until you fall
But even when you land
You'll be on your back

Like mannequins all dressed in designers
Have we forgotten where we come from?
With bottled hopes and dreams and desires
Must've forgotten that

We got bills to pay
We got rules to break
We got risks to take
We got things to say
No one ever said
It would be okay
But we'll find a way
When there's love

And we got love
Yeah, it's okay 'cause we got love
Yeah, it's okay 'cause we got love
Yeah, it's okay 'cause we got love

When we think that we know it all
Like a fighter in the ring
We get knocked back

Tread carefully where you walk
When the world is at your feet
Stay on track

Like mannequins all dressed in designers
Have we forgotten where we come from?
With bottled hopes and dreams and desires
Must've forgotten that

We got bills to pay
We got rules to break
We got risks to take
We got things to say
No one ever said
It would be okay
But we'll find a way
When there's love

And we got love
Yeah, it's okay 'cause we got love

When all is said and done
Our old flame's been and gone
Take some time to look how far we've come
Remember, that we got love
Yeah, it's okay 'cause we got love (We got love, yeah)

It's okay 'cause we got love

We got, we got love, yeah (Oh-oh, ooh)

Yeah, it's okay 'cause we got love

(Yeah, it's okay 'cause we got love)

Yeah, it's okay 'cause we got love
