Sigma

Ninety-nine degrees  
Ninety-nine degrees

Chasing the shadows getting hotter than the middle of June  
Two nights amnesia, lost my phone and then I hooked up with you  
We're making fires, starting riots 'cause you know how we do

Heat rising, I can't get enough (can't get enough)  
Turning up the temperature (turn it up)  
Oh, you know I don't wanna stop  
Gotta get to

Ninety-nine degrees  
Twenty-four-seven, three-sixty-five, I want to feel the heat  
Ninety-nine degrees  
Twenty-four-seven, three-sixty-five, I want it on repeat
