

Care About Us

Sigma

I got twenty-one questions
'Cause I don't know who to trust
New day with the same thing
Do you care about us?
I don't care if they judge me
I'm just trying to survive
That's how we live our life

I got twenty-one questions (Twenty-one)
'Cause I don't know who to trust (Don't know who to trust)
New day with the same thing (Same thing)
Do you care about us? (Do you care about us?)
I don't care if they judge me (Judge me)
I'm just trying to survive (Trying to survive)
That's how we live our life

All we know is fashion, ten toes and sirens flashing
Security don't do patdowns, my young G brought the wap in
If I see my opps in the club, splash 'em, splash 'em
Paper, give me that Lizzie, just like government taxes (Yeah)
Corrupted system, overpopulated prisons
In the city like KDB, but still he ain't got no vision, uh
Got cash and crypto, but still ain't got a pot to piss in (Nah)
And all we got is ambition, still feels like something is missing

I got twenty-one questions (Twenty-one)
'Cause I don't know who to trust (Don't know who to trust)
New day with the same thing (Same thing)
Do you care about us? (Do you care about us?)
I don't care if they judge me (Judge me)
I'm just trying to survive (Trying to survive)
That's how we live our life

It's crazy
They tried to break me down and chain me
We're still in shackles like it's slavery
See, they can try, but they can't make me
It's crazy
We ask for help, but them not save we
Struggle together on the daily
(Let's do, I just need one more pass of it)

I got twenty-one questions
'Cause I don't know who to trust (Don't know who to trust)
New day with the same thing (Same thing)
Do you care about us? (Do you care about us?)
