Every Song

Sigma

I think I'm doing alright
Then someone drives by with the windows down
And a song
Playing on and on
Take me back to the Saturday night
Where you and me danced under heavenly skies
In the cold
So you gave me your coat

Am I the one that you're thinking of
When you're alone, when you need someone?
'Cause I know it's been way too long
But I hear you in every song
And if I told you it's not too late
For you and I, what would you say?
'Cause I know it's been way too long
But I hear you, I still hear you in every

Song
Song, every
Song
I still hear you in every
Song
Song, every
Song
I still hear you, I still hear you in every song

Am I the one that you're thinking of
When you're alone, when you need someone?
'Cause I know it's been way too long
But I hear you in every song
And if I told you it's not too late
For you and I, what would you say?
'Cause I know it's been way too long
I still hear you, I still hear you in every song

Song, every
Song
Song, every
I still hear you in every
Song, every
Every song

Wherever you are
Whenever you want
There's a space in my heart
There's a space in my heart
Wherever you are
Whenever you want
There's a space in my heart

I still hear you, I still hear you in every song
