Sigma

Thought I could keep you  
Out of sight  
Out of mind, oh, oh, oh  
But under the surface  
There's a world  
Where you're alive

Hold your light higher  
Pull me back I'll  
Be running on the skyline  
You're still calling me to  
Catch the magic  
Between the planets  
So I

Oh, oh, oh, I can't ever forget it  
Can't let go, magnetic  
Be with you wherever you go  
Oh, it's more than poetic  
Something like magnetic  
Maybe we'll hold forever, oh, oh

Something like magnetic, magnetic  
Something like magnetic, magnetic

I'm entangled  
In a fire  
I can't breathe  
A poisonous feeling  
I can't describe  
You're giving me, oh, oh, oh

Hold your light higher  
Pull me back I'll  
Be running on the skyline  
You're still calling me to  
Catch the magic  
Between the planets  
So I

Oh, oh, oh, I can't never forget it  
Can't let go, magnetic  
Be with you wherever you go  
Oh, it's more than poetic  
Something like magnetic  
Maybe we'll hold forever, oh, oh  
Magnetic

Something like magnetic, magnetic  
Something like magnetic, magnetic
