

# ONLY YOU

Sigma

Waited for time  
I prayed every night  
For someone like you  
You showed me the light  
Came down from the moon  
Not a moment too soon

'Cause I was done with love  
Couldn't find a heartbeat  
Numb and out of touch  
Trying to set my soul free  
Then you found me

Only you can bring me  
Back to life again  
Back to love again  
Bring me back to life  
Only you can bring me  
Back to life again  
Showed me how to love again  
Bring me back to life  
Only you can bring me  
Back to life  
To life, to life  
Bring me back to life

They told me I was  
The hardest to love  
But that was never the truth  
They just weren't you  
Now my heart's in your hands  
Hoping you'll understand  
That you're holding the key  
To my destiny

'Cause I was done with love  
Couldn't find a heartbeat  
Numb and out of touch  
Trying to set my soul free  
Then you found me

Only you can bring me  
Back to life again  
Back to love again  
Bring me back to life  
Only you can bring me  
Back to life again  
Showed me how to love again  
Bring me back to life

Only you can bring me back to life  
Only you can bring me back to life
