

Summer Days

Sigma

The sun goes down every day
It feels like nothing comes around
Summer love this way

The sun goes down every day
My burning soul will soon arise

The sun goes down every day
It feels like nothing comes around
Summer love this way

The sun goes down every day
My burning soul will soon arise

Ain't nothing comes around
Sun goes down every day

The sun goes down every day
It feels like nothing comes around
Summer love this way

The sun goes down every day
