

## Leave This Behind

### Signs of Betrayal

Can't find serenity  
With all of these emotions  
They're haunting me  
The faces tiring  
It's the same shit every day  
With no ending

My patience growing weak  
Don't want the world to see  
This happen to me

Leave this behind  
Before saying goodbye

The anger changing me  
Another day goes by  
And I can't break free  
Seems like eternity  
Before all this is over  
And I can breath

Leave this behind  
Before saying goodbye

And I can't wait to break free from this  
Cold dark place that we call our own world

Leave this behind  
Before saying goodbye
