

# Exhausted Legions

## Signs Of The Swarm

Hollow and numb abandon this useless fucking world

I've taken all I can handle

This is my breaking point

I'll watch the earth burn around me and not give one single fuck

Take these cold hands, let me feel again

I'm fucking hollow

Feeding off of the hatred around me forming a legion

A chance to submit the oppressors of the world

Extermination of the foolish

Proving a point to these bastards

Hollow and numb abandon this useless fucking world

I've taken all I can handle

This is my breaking point

I'll watch the earth burn around me and not give one single fuck

In the end there is no savior

Like machines we will destroy our creator

We are just fucking machines

In this oppressive existence

Driven to prove a point to the world
