

IWONTLETYOUDIE

Signs Of The Swarm

Now you're mine
Through haunted whispered lies
Entwined, falling to my design
Your cries become my art
It grips your soul and tears you apart

Binding to your senses
Stealing all your essence
Another parasite, senseless
Possessing your spirit
Claiming your fucking soul

There is no god to hear you cry
You're dead in my fucking eyes

Steel and bones collide
As flesh divides
You wanted death
I give you life
I won't let you die

Now you're mine
This is your destiny
This is your destiny

Iwontletyoudie

This is no hallucination
This is my curse
This is how my blessings work

Oh

There is no god to hear you cry
You're dead in my fucking eyes

Steel and bones collide
As flesh divides
You wanted death
I give you life
I won't let you die

Iwontletyoudie
Iwontletyoudie
Iwontletyoudie
Iwontletyoudie

Through haunted whispered lies
Now you're mine
Through haunted whispered lies
Now you're dead
