

# Do It Again

Sigrid

Hello, hello  
Call me on your way back home  
Before goodbye  
Let me say this one more time

I don't mind, if you don't mind  
Falling for it every time  
You will always be my first  
Even if it hurts

I wanna do it again  
Do it again  
Something about you makes me wanna pretend  
I can do it again  
Do it again  
Do it again  
Do it again  
Something about you makes me skip to the end  
So I can do it again  
Do it again

So put me on  
Wear me out just like a song  
Your turn, your move  
Get me back for leaving you

I'm not scared, if you're not scared  
I'm not going anywhere  
As long as there's a feeling still  
You know I always will

I wanna do it again  
Do it again  
Something about you makes me wanna pretend  
I can do it again  
Do it again  
Do it again  
Do it again  
Something about you makes me skip to the end  
So I can do it again  
Do it again

One more drink  
One more song  
One last time  
Even if it hurts

Do it again  
Do it again  
Something about you makes me wanna pretend  
I can do it again  
Do it again  
Do it again  
Do it again  
Something about you makes me skip to the end  
So I can do it again  
Do it again
