

Fort Knox

Sigrid

I don't recognise you anymore
And that heartbeat in your chest
And I don't know what you came here for
'Cause you touch like you want revenge

Take all my tears, honey
Take 'em and leave tonight
'Cause I know where this is going
Take all the tears I cried

This time
I'm gonna lock my love in a box
And safeguard it like I
Never kissed you
Never taught you
Never played you
Never fucked you
Never lost you
Never missed you
Did I love you?
I didn't mean to
Never tricked you
Never chased you
Never hacked you
Never held you
Never cursed you
Never knew you
Did I love you?
I didn't mean to

I'm gonna lock my love in a box
And safeguard it like it's Fort Knox
I'm gonna lock my love in a box

Oh, you said I'm irreplaceable
Go ahead, try, I wish you the best
'Cause I know that you are easily bored
Try to get me out of your head

Take all my tears, honey
Take 'em and leave tonight
'Cause I know where this is going
Take all the tears I cried

This time
I'm gonna lock my love in a box
And safeguard it like I
Never kissed you
Never taught you
Never played you
Never fucked you
Never lost you
Never missed you
Did I love you?
I didn't mean to
Never tricked you
Never chased you

Never hacked you
Never held you
Never cursed you
Never knew you
Did I love you?
I didn't mean to

I'm gonna lock my love in a box
And safeguard it like it's Fort Knox
I'm gonna lock my love in a box
And safeguard it like I
Never kissed you
Never taught you
Never played you
Never fucked you
Never lost you
Never missed you
Did I love you?
I didn't mean to
Never tricked you
Never chased you
Never hacked you
Never held you
Never cursed you
Never knew you
Did I love you?
I didn't mean to
