

# Go To War

Sigrid

Friends is forever  
Explosive together  
Grew up in the same place  
Broke out of the same chains

Opposites dreaming  
Telling lies but believing  
No, we're a passionate meltdown  
Raging through town

It's like we go to war  
And I wonder just what we're fighting for  
Day and night  
It's like we go to war  
Do you even hear me when I say...  
It's like we go to war  
And I wonder just what we're fighting for  
Day and night  
It's like we go to war  
But what we fighting for?  
If the two of us will ever know

We live like the weather  
We long for the better  
Grew up in the same place  
Broke out of the same chains  
Whoa

Opposites screaming  
Telling lies but believing  
No, we're a passionate meltdown  
Raging through town

It's like we go to war  
And I wonder just what we're fighting for  
Day and night  
It's like we go to war  
Do you even hear me when I say...  
It's like we go to war  
And I wonder just what we're fighting for  
Day and night  
It's like we go to war  
But what we fighting for?  
If the two of us will ever know

It's like we go to war  
It's like we go to war  
It's like we go to war  
It's like we go to war

No, really thought we had everything going for us  
But then we fall  
Thought we were over it  
Think gravity caught us  
Gravity caught us

It's like we go to war

And I wonder just what we're fighting for  
Day and night  
It's like we go to war  
Do you even hear me when I say...  
It's like we go to war  
And I wonder just what we're fighting for  
Day and night  
It's like we go to war  
But what we fighting for?  
If the two of us will ever know  
Will ever know

It's like we go to war  
It's like we go to war  
It's like we go to war  
It's like we go to war

It's like we go to  
It's like we go to  
It's like we go to  
It's like we go to war
