

Jellyfish

Sigrid

I saw you from across the room
Looking shaky, concentrating
Missing all your social cues
And from that moment, in the quiet

I decided
It's me and you
It's us against the world

Go on, move like a jellyfish
I'm into it even if it ain't deliberate
If you go dancing, I'll go dancing too
We're just two kids in a crowded room
Chemistry in awkward deliveries
Just me and you and all our insecurities
If you go dancing, I'll go dancing too
If you're a loser, then I'm just like you

Feel the beat is kicking in
And don't worry, if you miss it
Move your feet and take it in
Let the music, do the talking 'til the morning

You know it's
Me and you
It's us against the world

Go on, move like a jellyfish
I'm into it even if it ain't deliberate
If you go dancing, I'll go dancing too
We're just two kids in a crowded room
Chemistry in awkward deliveries
Just me and you and all our insecurities
If you go dancing, I'll go dancing too
If you're a loser, then I'm just like you
