

## Level Up

Sigrid

In your house  
I got my suitcase 'cause I'm heading out  
And all the problems that we dance around  
Are hanging in the midnight air  
I know you're tempted to just leave 'em there  
Our time is short, so we don't take our chances  
You should know that

Nothing you say's gonna push me away  
So don't brush it under the rug  
'Cause when we get through the struggle  
That's when we level up

Last week, I, I had too much clutter in my mind  
Wasted so much of our precious time  
I swear it scared me  
Yes, it's true, I didn't hold you like I wanted to  
You ease my mind just like you always do  
That's when you tell me

Nothing you say's gonna push me away (Nothing you say)  
So don't brush it under the rug (Don't brush it)  
'Cause when we get through the struggle  
That's when we level up
