

Two Fish

Sigrid

Two fish in the open wide sea
Never alone 'cause there was a we
Too many choices, so little time
Why did you rush in without any thought?
Do you remember what I said to you?
Do you remember what I begged you to do?

I said, don't swim away from me
I need you here by my side
But you chose to leave me all by myself
So I, I made my own way

At first, I was down
At first, I was at the worst
I tried to follow your path
I tried, but it just did not work
Maybe I'll be a better person
But I will never forget what you did to me

I said, don't swim away from me
I need you here by my side
But you chose to leave me all by myself
So I, I made my own way
