

Working Alone

Sigrid

Did you grow up
While I was away?
You show up now
Well maybe now is too late
I fell for you
In a t-shirt with holes
They say you're cool
I've only known you as cold

Every time we hit it off
You just go and mess it up
We used to be close
Every time we break it off
I just wanna fix it up
But I'm working alone
I've been working on you
The only work I do

Every time we hit it off
You just go and mess it up
We used to be close
Every time we break it off
I just wanna fix it up
But I'm working alone

I know you so well
But I still buy your excuses
The lies you tell
You forgot what the truth it
Drowning waves
Oh, I know you don't swim
So I take your hand
And pull you back in

Every time we hit it off
You just go and mess it up
We used to be close
Every time we break it off
I just wanna fix it up
But I'm working alone
I've been working on you
The only work I do

Every time we hit it off
You just go and mess it up
We used to be close
Every time we break it off
I just wanna fix it up
But I'm working alone
I've been working on you
I've been working on you

So bittersweet
Finding peace
All wrapped up in goodbyes
Hello, goodbye
My dreams are repeats, I can see

I'm working all the time
And I pay the price

I've been working on you
The only work I do

Every time we hit it off
You just go and mess it up
We used to be close
Every time we break it off
I just wanna fix it up
But I'm working alone
I've been working on you
I've been working on you

I've been working on you
I've been working on you
