

'98 Freestyle

Silas

This shit got me thinking bout a different time yo
Back when I had to really let these rhymes go
Do the people really love me are they minds blown
Am I on that caliber to make it on tho
I been feeling different yes you know I'm boutta shine
Yea I'm buddy buddy yea you know the place in time
Imma do this for my folk cause when I spit a rhyme
Imma do this for my moms when I spit a rhyme
She was out there in a whip just bumping nasty Nas
Saying buddy yea you freestyle that shit all the time
Had a cup of tea some poetry gon make it right
Me and dad been fighting lately but what's on my mind
Ima rap about that shit cause it just ease my mind
And Imma rap about this shit it make me feel alive
Tell the truth you know the real is really on the rise
I don't give a fuck you know I'm boutta make it mines

Baby girl you know staying wide awake
Take it back to when we rolled up everyday
Lately it been on my mind I got to say
Aye aye aye aye

Baby girl you know staying wide awake
Take it back to when we rolled up everyday
Lately it been on my mind I got to say
Aye aye aye aye

I remember being young thinking that I knew it all
Now I'm 21 baby and I'm living wit the flaws
As a young man no they never understand
Got into this music for my heart I hope you understand
My outlet to tell you all you motherfuckin' doubters
That Anthony is something coming up we came from nothing
I ain't frontin' I'm a damn king go and check the last name
Muhfuckas know the deally spark a philly poppin' wheelies
Never intervene take em back to servin' fiends
Wonder why life is mean but you livin' tho
Gotta be on point they used to say I'd be a criminal
Now the only time they talk about it through subliminals
This my life story never rapping bout the fiction
Coming where we from I'm blessed to never see addiction
I'm just tryna grow up and so what
They only care about you if you bout to go and blow up
And you know

Baby girl you know staying wide awake
Take it back to when we rolled up everyday
Lately it been on my mind I got to say
Aye aye aye aye

Baby girl you know staying wide awake
Take it back to when we rolled up everyday
Lately it been on my mind I got to say
Aye aye aye aye
