Yeah, Yeah
Yeah
Yeah, Yeah

Life right now feel like a sucker punch
I ain't got enough money, go and eat some lunch
I been lunchin, so you know I got to get the chrome out
I been with the homies and you know we bout to roll out
Dropping out of school cause the bread in the streets
I ain't going to stop til the breds on my feet
Everything I am doing is a lesson to me
Everything I am doing is depressing to me
Tell me how I move on from the bullshit
Tell me how to get away from the street shit
I ain't wanna leave this in the pieces
I just wanna scream peace, throwing pieces
Do you really care about the boy to fade away (yeah, yeah)
Swear we lose them everyday
Do you really care if I give my life away, cause I'll lose it anyway

Tell me why you never like that
Never like that, yeah
Tell me why you wanna fight back
Why you wanna fight back, yeah
Talking bout the night where the light at
Where the light at, yeah
You be right there when we light that
When we light that, yeah
Tell me why you never like that
Never like that, yeah
Tell me why you wanna fight back
Why you wanna fight back, yeah
Talking bout the night where the light at
Where the light at, yeah
You be right there when we light that
When we light that, yeah

Years can pass by, they forgot I even died
Wonder what the truth is
Wonder if he lied
Why they never helped me when they could've said no
Family acting stupid, yeah they knew I sold dope
Almost got stabbed and the shit is no joke
Sleeping on the bench, robbing every four door that I seen looking clean
Doesn't make a difference, I was tryna get the C.R.E.A.M
Bumping Wu-Tang, Motherfucker its a dream
Riding on the bus, getting off serving fiends
Roll a couple blunts, get up serving fiend
Never had enough, gave up on your dreams
Gave up on your dreams
Telling me everything that I need to get away
I can see the difference, but I'm living anyway
Tryna make a difference, so the pain go away
Reaping what I sold to my soul is away

Tell me why you never like that
Never like that, yeah

Tell me why you wanna fight back
Why you wanna fight back, yeah
Talking bout the night where the light at
Where the light at, yeah
You be right there when we light that
When we light that, yeah
Tell me why you never like that
Never like that, yeah
Tell me why you wanna fight back
Why you wanna fight back, yeah
Talking bout the night where the light at
Where the light at, yeah
You be right there when we light that
When we light that, yeah

Yeah, yeah
Where the light at, yeah
Yeah, yeah
Where the light at, yeah
Yeah, yeah
Where the light at, yeah
Yeah, yeah
Where the light at, yeah
