

# Buddy (1998)

Silas

What's my purpose  
Know it's deeper than the surface  
Everything these people say is nothing  
Know that they be fronting  
Cause I came up in a time  
Rhyming specials on my mind  
Just wanna be the illest  
And hope that the world gon feel us  
But fuck it I'm on my own shit  
The shit that make me feel good  
Remind back when I started just to feel good  
Like we ain't from the hood but I see it as my outlet  
People sayin I'd be nothing now they never doubt em  
Chip on my shoulder my girl been pushin Corollas  
I need a change here man I need a change fear  
Out my muhfuckin mind till I'm finally seeing clear  
If you didn't know my family always called me buddy  
Swear I used to fuckin hate it now I think back to the lovely times  
Stress ain't all up on my mind just started to bust a rhyme  
Swear I know what I been here to do  
Can't let fear control you tryna see the real in you

I feel a difference on these late nights I been happier  
My energy enclosed for something great and I suppose  
That my life is on a different path deeper than this rap  
And I swear that I can help the people stop em from just livin evil  
Buddy buddy do you know how I been feelin now  
Pushin thru this life and I been praying that you figure out  
Take em back to when I used to say I'll find a way  
Feels like a decade and no there ain't no time to waste  
But do you really know the truth cause when I rhyme it through  
Know these verses heaven sent for every thing that I been through  
Kyle Seth And Tyler done seen it I'm talkin dreamin  
Leaving anger in the past cause the pain it never last  
Time to focus why I fell in love wit rappin  
Here's what happens when you put a boy wit nuffin inside of a booth come packin'  
You lacking to show ya roots you lackin just go and tell the truth  
Can't let fear control you I'm tryna see the real in you
