

Come Thru

Silas

Come thru
When you come thru
Just like Pac I get around
Baby, I just need you now
So tell me what's been going down
Won't you come thru
When you come thru
Just like Pac I get around
Baby, I just need you now
So tell me what's been going down
Won't you come thru

I've been jumping up like Vince Carter trying to make our story something special but you been stuntin'
All this bullshit in your head now
Yeah I made mistakes now I need to recollect some ends now
Won't you air it out
But ain't care now
I guess the years have passed never really made sense
But these thoughts been fucking with me every time I need to vent like
Do you remember what I said
Living at your house too broke to even pay the rent
Sleeping on your bed you look so precious, I admit
I was to young for commitment now I'm dealing with regret
All my people know the feeling when you lost
So, what's the catch
Looking at the guys like you a goddess and I'm blessed
But the feelings get the best of you
People keep on testing you
You need a make a mess or two

Come thru
When you come thru
Just like Pac I get around
Baby, I just need you now
So tell me what's been going down
Won't you come thru
When you
Tell me what's been going down
Won't you
When you
Just like Pac I get around
Come thru
When you
Come thru
When you
Tell me what's been going down
Won't you
When you
Come thru
When you
Baby, I just need you now

Are we making up
Like are we making love
Feelings hit you harder but you need a rush
Man this shit is like a drug the way I needed love

Got me itchin' every single fucking day for you
Think about the past I hid the pain for you
I know I've messed up many times I done change for you
Now I feel the need to go and run away with you
Too much on my mind now
You yelling screaming calm down
Where was you baby when all the odds against me I'm down
All about the shit for you
Write it in a notebook and then people think I'm cynical
Syndicate these feelings with religions I ain't finish
Lot of women feeling like they man is just a villain
Lots of people feeling hella hopeless imposition
Get up out the struggle with the one you want to listen hey

Come thru
When you come thru
Just like Pac I get around
Baby, I just need you now
So tell me what's been going down
Won't you come thru
When you
Tell me what's been going down
Won't you
When you
Just like Pac I get around
Come thru
When you
Come thru
When you
Tell me what's been going down
Won't you
When you
Come thru
When you
Tell me what's been going down
Won't you come thru
