Silas

See I, found my way, in a way, but we move on  
And I tell you it's been hard when you do wrong  
All of this been on my mind with the new low  
And you know that life been hard don't you stoop tho  
No, no don't you stoop tho  
No, no don't you stoop tho

See I, found my way, in a way, but we move on  
And I tell you it's been hard when you do wrong  
All of this been on my mind with the new low  
And you know that life been hard don't you stoop tho  
No, no don't you stoop tho  
No, no don't you stoop tho

Why you really wanna talk to me?  
If you really wanna walk through it  
I don't even wanna talk to her  
I just need some space I'm all through it  
Cause I told you bout all my dreams  
And I told you bout everything  
It's on my mind now  
All them years I spent just fall out  
Hope them dreams don't come at all now  
And you just gonna hate it all now  
Motherfuckers gonna ball now  
I ain't even tryinna stunt  
But I played it through the front  
'Member when they used to tell me  
Home boy go and give it up  
Up, up  
Go and give it up  
Up, up

See I, found my way, in a way, but we move on  
And I tell you it's been hard when you do wrong  
All of this been on my mind with the new low  
And you know that life been hard don't you stoop tho  
No, no don't you stoop tho  
No, no don't you stoop tho

See I, found my way, in a way, but we move on  
And I tell you it's been hard when you do wrong  
All of this been on my mind with the new low  
And you know that life been hard don't you stoop tho  
No, no don't you stoop tho  
No, no don't you stoop tho

Give me every-  
Every time they go and talk like they got everything  
They don't even wanna say it  
They don't even wanna say  
When you know that you got everything  
They don't even wanna say it  
They don't even wanna know  
Wanna know  
When you know that you got everything!
