

Keep Ya Head Up

Silas

Take a listen here's my vision thru my composition
Member back when we was younger had no pot to piss in
Daddy dipped so I just rip these instrumentals wicked
Bout to flip cause I be rappin bout that shit I'm gifted
Motherfuckers get the deal when you be on yo shit
Hieroglyphics paintin picture come hither you bitch
I'm not playin wit these people settle down yo
They be twisting words fuck it tho I must defer
Tryna make the illest shit these fuckers ever heard
On my late nights riding down the street vibing wit these beats
I just wonder how to make a change
Make a difference in the world before I fade away
Man it's nothing in my mind
State worried bout the crime
Worry bout my peoples tell the truth that shit beyond me
If I wanna be the realest on this earth
Gotta put in work before I end up in the dirt and you know

Keep your head up (gotta, gotta keep your head up)
Don't look down (gotta, gotta keep your head up)
Your hope isn't lying (gotta, gotta keep your head up)
On the ground (gotta, gotta keep your head up)

Keep your head up (gotta, gotta keep your head up)
Don't look down (gotta, gotta keep your head up)
Your hope isn't lying (gotta, gotta keep your head up)
On the ground (gotta, gotta keep your head up)

These days feel like nothing in my way
I be writing songs it's my purpose gotta say
How you doing lately how you feelin what's been on yo mind
Cause I know that life is difficult we tryna live divine
All my peoples from da frontside waiting on their lunch time
Prayin that they sun shine swear I feel that shit
Know nothing real as this moment that we making in time
My rhymes be my sanctuary but it's kinda scary
When I'm putting my whole life on a page
For you for her for him and them it's all pretend
Stretch the truth and you got lots to lose
I wonder if these people rock wit you and what they feelin
Cause I know these bars be iller when you smokin on some killa
And you tryna stack yo skrilla hope you know yo shorty sucking say I taste v

Keep your head up (gotta, gotta keep your head up)
Don't look down (gotta, gotta keep your head up)
Your hope isn't lying (gotta, gotta keep your head up)
On the ground (gotta, gotta keep your head up)

Keep your head up (gotta, gotta keep your head up)
Don't look down (gotta, gotta keep your head up)
Your hope isn't lying (gotta, gotta keep your head up)
