

Levitate

Silas

Hyperbolic
When I'm in your time chambers
We defy logic
Head in the stars, Carl Sagan
It's so Team Rocket
Here we go again, blasting off again
When we're on it
Baby how do you make me levitate
Levitate
Make me levitate
Elevate, I'm
In a higher space
Levitate
Make me levitate
Elevate, I'm
In a higher space

Think that I'm in love again
Think that I'm in love again
Got me in my element
The happiness is evident
Loving you's my medicine
Loving you's my medicine
Baby you're the I'm leaning on
Kholwa ngama Benylin
Uyang' guqisa, Methodist
I know that you're heaven sent
Remember I was down and out
Inja emdaga, in the trench
Wang buyisa, Lazarus
Manje phezu kwabo, khip' idrip
Jiggy jiggy, heavy heavy
Local fela, kohwi Donatella
Thinking Rich Mnisi ka di jersey
Bonang Matheba, ha mo girl a tsena
What a life, what a life

Hyperbolic
When I'm in your time chambers
We defy logic
Head in the stars, Carl Sagan
It's so Team Rocket
Here we go again, blasting off again
When we're on it
Baby how do you make me levitate
Levitate
Make me levitate
Elevate, I'm
In a higher space
Levitate
Make me levitate
Elevate, I'm
In a higher space

Now third eye open, I'm Tien

All they hearing is bo Aah
Swear you learning ama vowel
Feel like Nature with the Woo
Shay' ispan', ncibi igown
After I pin you down
1, 2, 3, Fe fo fi fum
You've been jacking up my Beanstalk
Gravy potent, hase Bisto
Now it's Van Damme esisweni
Hope she pretty like Qiniso
You want mosimane, maybe pitso

So she might Steve Rodgers for the people
My baby girl a young Biko
