

OUR WORLD

Silas

Yeah yeah
Yeah, yeah

Yeah, this that real chill shit
Soul come alive when you hear this shit
Beach vibes, sun hitting, do you feel this shit?
Come on, yeah, do you feel this shit?
Dig real deep from your soul within
This is our world, go and take it in
We just getting started, shit we 'boutta begin
My queen take your knight, what a elegant pin

Yeah, this that real chill shit
Soul come alive when you hear this shit
Beach vibes, sun hitting, do you feel this shit?
Come on, yeah, do you feel this shit?
Dig real deep from your soul within
This is our world, go and take it in
We just getting started, shit we 'boutta begin
My queen take your knight, what a elegant pin

Yeah, what a elegant pin
I always stay moving with all of my brethren
Emotions I keep 'em in unless I'm picking up the pen
Yeah, this is where it begins
I'm talking all world, go and take it in
We are killers for this shit the way we bleeding with our pens
Remember being in the backseat as a kid, taking it all in
And now I'm reminiscing, wishing I could travel back then
Back then, when the only thing I had was dreams
Back then, I was just a youngin in his teens
Back then, I could never dream what I've achieved
And this is nothing yet, I'ma get it all by any means
I ain't stopping till I'm on top like an apex predator
Bitch we hot, check my temperature, we on the rise
We on the rise, we tryna immortalize
We on the rise, we tryna immortalize

Yeah, this that real chill shit
Soul come alive when you hear this shit
Beach vibes, sun hitting, do you feel this shit?
Come on, yeah, do you feel this shit?
Dig real deep from your soul within
This is our world, go and take it in
We just getting started, shit we 'boutta begin
My queen take your knight, what a elegant pin

Yeah, this that real chill shit
Soul come alive when you hear this shit
Beach vibes, sun hitting, do you feel this shit?
Come on, yeah, do you feel this shit?
Dig real deep from your soul within
This is our world, go and take it in
We just getting started, shit we 'boutta begin
My queen take your knight, what a elegant pin

Look, what a elegant life

I found that harder times really sharpen the knife
But when you at the bottom swear you know what it's like
Nobody really fuck with you, you know this in life
They only want you for some monetary gain
Or a little bit of clout, that's the internet's shame
I used to wanna change the world but I ain't feeling the same
One inspired my kids to go and find they own lane, like
You can do anything that you dream of
Seen the whole wide world when they see us
Gotta sing it on the record to believe us
It's our world, our life, we the dreamers
The last chance, the last hope
The last section of time for my quotes like
The last chance, the last hope
The last section of time these my quotes, it's like

Yeah, this that real chill shit
Soul come alive when you hear this shit
Beach vibes, sun hitting, do you feel this shit?
Come on, yeah, do you feel this shit?
Dig real deep from your soul within
This is our world, go and take it in
We just getting started, shit we 'boutta begin
My queen take your knight, what a elegant pin

Yeah, this that real chill shit
