

## Outro

Silas

I wonder if you're here  
Wonder if you know  
I hope that you can see  
All that I will be  
Cause I been on my own  
So far away from home  
Tell me if I'm wrong  
Tell me where to go!

I wrote that  
With my last bit of faith  
Record that one verse  
Hope that all will relate  
It's funny with my sentences  
I put myself in space  
I just dropped The Genesis steady hoping that I make  
Your mama proud and Logic proud my phone ringing oh wait  
Book a flight straight out to LA  
Got that drive like this shit valet  
But these fears up in my mind  
Got me spun out that shit is ballet  
But I know I got that flow  
I got that heart to make it happen  
Just a young man grindin what the fuck could keep me happy  
Said that jewelry ain't fooling me  
But the label said it's cool to be  
Something that ya not  
But this is something that would flop  
I seen the popo go to pop and homies locked down on the block  
While mama boyfriend selling rocks and stole that money from my pot  
I done moved out on my own  
I hope that God Pick up the phone cause I been distant for so long  
I see this blessing and I'm gone  
But I wonder what would happen  
If I stayed with you for long I just

I wonder if you're here  
Wonder if you know  
I hope that you can see  
All that I will be  
Cause I been on my own  
So far away from home  
Tell me if I'm wrong  
Tell me where to go!

I wonder if you're here  
Wonder if you know  
I hope that you can see  
All that I will be  
Cause I been on my own  
So far away from home  
Tell me if I'm wrong  
Tell me where to go!
