

Sk(i)walker

Silas

All black Luke Sky', I swear my force so high, but yes this day won't die
It's all black Luke Sky', I swear my force so high, but yes this day won't die
And as I pick up on my saber, look at the world and then I tell 'em, "See you later"
And as I pick up on my saber, look at the world and then I tell 'em, "See you later"

Fucking with me now, they wasn't fucking with the sound
But I get that popo come around, wanna get that money making foul
While it so dirty take a shower, but I seen a lot from higher power
When I move, with the groove, got the shit that make you lose
It's so hard to pick and choose
I seen my angel coming through
I seen my lightsaber the truth
I seen the world and how they do
But you got some snakes in crew and can't tell you just what they do
While we move along, I'm gone, and you seen a lot from chrome
Made me wonder about yo home and what the fuck was going on
I swear that shit is so wrong, I swear that shit is all wrong
How we grew up, so screwed up, fuck 'em never knew us
My momma got two kids and neither one of us gone graduate
Can't pay back yo Sallie Mae
Can't walk down that alley way without looking around my shoulder blade
Hold it down, you know the pain
Young Padawan, I know you straight
Young Skywalker, y'all know the face
I had to leave, I gotta play, I gotta do this here today (Like!)

Training here in Dagobah, feeling like a Padawan
I'm just trynna fuckin' ball, so I gotta go get my own
Training here in Dagobah, feeling like a Padawan
I'm just trynna fuckin' ball, so I gotta go get my own
And as I pick up on my saber, I'll look at the world and then I tell 'em, "See you later"
And as I pick up on my saber, I'll look at the world and then I tell 'em, "See you later"

All black Luke Sky', I swear my force so high, but yes this day won't die
It's all black Luke Sky', I swear my force so high, but yes this day won't die
And as I pick up on my saber, look at the world and then I tell 'em, "See you later"
And as I pick up on my saber, look at the world and then I tell 'em, "See you later"

Always on my own, but this the story of a Jedi
When I hit the flight like red eye, bet, I bet I be the greatest
I just fucked around and made this, my force so strong, like lately
When I rhyme, ahead of my time, kicking the shit so they wonder when I, Sk(i)walker
Don't forget the name I called it
I take the beat, assault it, I'm here now so mark it Young, Jedi, and I swear I'll fucking flaunt it
I'll be the best, no talking
When you know I'm on, i'll dog it (Like!)

All black Luke Sky', I swear my force so high, but yes this day won't die
It's all black Luke Sky', I swear my force so high, but yes this day won't die
And as I pick up on my saber, look at the world and then I tell 'em, "See you later"
