

Don't II

Silence 4

After all these years
You finally come home
I've been waiting, fading
What kind of long road
Has made you take so long?

And makes you think
You can mend what is wrong
And you just walk in
Crush me down

Don't cry over me
It won't wash the pain and
Don't lie, don't even try
To give yourself away
Waves of deception are
Breaking my beliefs

You once said you would
Never ever leave me

The show (?) of your smile
Well I try to hide my scars
Don't come near me, don't touch me
Well, I already know
Who you are

Don't cry over me
It won't wash the pain and
Don't lie, don't even try
To give yourself away
Waves of deception are
Breaking my beliefs

Don't you leave
Don't you ever leave
Never leave...
