

## Where Are You?

Silence 4

I had forgotten  
Of how much it hurt being left  
Out in the cold  
But still can remember  
The promises you made up  
When you told me to go

"Don't be so sour  
We will always be in touch"

So naïve of me...  
You said you loved me  
But can't figure out what kind of love  
I really don't care  
I'll take what you have

Where are you?  
I need your presence  
Where are you?  
I feel so useless  
Where are you?  
My beliefs are fading  
Where are you?  
Come to me

Why do I care for  
Such a cold-hearted soul?  
You're like a disease  
So why do I suffer  
If you're hanging around with the cure?  
I'll pay what you ask  
I really don't care

Where are you?  
Beauty queen, you're melting  
Where are you?  
Liberty, you failed me again  
Where are you?  
Can't you see I'm lonely  
Where are you?  
Come to me
