

# Anywhere Tonight

Silent Circle

I can't forget the day you left me,  
Nights of love, the nights of fear  
You made me feel I'm your desire  
Could I feel this flame again?

Anywhere tonight  
Walking side by side  
I wanna hear your voice,  
I wanna see your eyes  
Anywhere tonight (night-tonight)  
Walking side by side (side by side)  
I wanna feel your breath,  
Hold me tonight

My days are turning into darkness,  
I lost the chance, I lost my dreams  
In empty streets I walk to find you  
Only the wind can hear my cry

You set my heart on fire,  
You are my own desire,  
I wanna see your eyes,  
Hold me tonight
