

# Danger Danger

Silent Circle

Hey, you  
I would like to meet you when the day is gone  
My heart's trembling and I'm turning  
Round and round

Looking at your photograph  
Can't forget the way you laugh  
You have changed the way I feel  
I feel inside

My heart is feeling something new  
Changing every black to blue  
Every day you're on my mind  
I've lost control

Danger, danger  
Can't you hear me crying, crying  
Oh-oh danger, danger  
I can't get away  
How could I live without you

Danger, danger  
Is it love I'm feeling, feeling  
Oh-oh danger, danger

I have lost my heart  
You mean everything to me  
I just know: you got my heart  
And now you want my soul

Hey, you  
Hey, you  
I'm trembling and I'm turning  
Round and round

My heart is feeling something new  
Changing every black to blue  
You have changed the way I feel  
I feel inside

Looking straight into your face  
Waiting for your sweet embrace  
Feel that you can read my mind  
I lose control

Danger, danger  
Can't you hear me crying, crying  
Oh-oh danger, danger  
I can't get away  
How could I live without you

Danger, danger  
Is it love I'm feeling, feeling  
Oh-oh danger, danger

I have lost my heart  
You mean everything to me

I just know: you got my heart  
And now you want my soul

Danger, danger  
Can't you hear me crying, crying  
Oh-oh danger, danger  
I can't get away  
How could I live without you

Danger, danger  
Is it love I'm feeling, feeling  
Oh-oh danger, danger  
I have lost my heart
